## Ecology and Recovery of Eastern Old

North American landscapes have been shaped by humans for millennia through fire, agriculture, and hunting. But the arrival of Europeans several centuries ago ushered in an era of rapid conversion of eastern forests to cities, farms, transportation networks, and second-growth woodlands.

## **Ecology and Recovery of Eastern Old**

tigation was as an undergraduate ecology student visiting Hartwick Pines State Park in Michigan, a remnant patch of old-growth eastern white pine. I had known as a youth the story of how Michigan was once covered by old-growth pine and hardwood forests that were lost to logging in the late nineteenth and early twentieth centuries.
